

NetCentrics Highlights

NetCentrics has been providing innovative information technology (IT) services since 1995. We support customers specializing in network design, information assurance, installation and management, software development, and process improvement.

NetCentrics ITS-SB Team - Consists of a select group of quality large and small information technology companies with extensive experience delivering solutions to the US Army and other Government agencies for sustaining base, strategic, and tactical environments. The NetCentrics Team covers 65 locations in all 50 states.

Why NetCentrics?

- ⇒ ISO 9001:2008 Certified Quality Management System (QMS)
- ⇒ Standardized processes and Quality control methods applied at all levels with our PMO team.
- ⇒ Exceptional past performance delivering solutions to customers, including HQDA, USAITA, and NETCOM.
- ⇒ Manages largest installation of Windows servers (1,400) and storage (1 PB of MAC-1 and 3.5 PB COOP) within the Army
- ⇒ Lead Army's HQDA Exchange migration to DISA email
- ⇒ Designs and globally deploys SCCM enterprise application supporting 300,000 clients worldwide
- ⇒ Manages C&A and CA processes for every system connecting to the Pentagon Network
- ⇒ Manages 24x7x365 Pentagon Computer Incident Response Team (PENTCIRT)
