“

Your hard work, professionalism, and willingness to work extended hours in an unfamiliar environment are to be commended and are keeping with the highest traditions of the Coast Guard. Thank you for a job well done!

## Who We Are

NetCentrics provides mission-focused people, proven capabilities, and solutions in a highly collaborative environment. We have nearly three decades of proven experience securing our nation by providing innovative mission ready solutions to the whole of federal government. We move at warp speed with a mission-first mindset, engaging with the nation's toughest challenges in Cyber Security, Cloud Security, Digital Transformation, and Mission Support.

Using our innovative technology, such as Wraith and Revenant, and access to the top talent in the world, we ensure you are aligned with industry requirements, policies, and threats. Not only do we welcome challenges, but we are also inspired by them! NetCentrics performs with agility and unmatched resourcefulness. This unique blend enables us to conquer projects of any size and scope.

NETCENTRICS

A hand is shown from the right side, with the index finger pointing towards a glowing orange node in a network diagram. The background is dark blue with a complex web of white lines and nodes, some of which are glowing orange. The overall theme is technology and cybersecurity.

COMMITTED  
TO SERVICES,  
SOLUTIONS,  
AND PEOPLE

# CORE COMPETENCIES

## Cyber Security:

The cyber threat landscape is constantly evolving, and so is NetCentrics. We are dedicated to delivering modern and customized solutions to the Department of Defense (DoD) and federal agencies, ensuring they are mission-ready. Our support extends to TTP development for the U.S. Coast Guard and National Guard, as well as providing services and capabilities such as SOC, SOCAaaS, CSOC<NOSC, and Cyber Protection teams. With our advanced engineering expertise, we offer the right solutions and expert personnel to outsmart adversaries in any cyber situation. Partnering with NetCentrics means securing your network, mission, people, and desired outcomes.

## Cloud Security:

In the realm of the “invisible war in cyberspace,” the cloud embodies the evolving nature of the threat. To safeguard our civilian and national defense cloud assets, relying on outdated defensive tools is insufficient. At NetCentrics, we recognize the need to stay ahead of adversaries who are fast, agile, and constantly advancing their technology. By leveraging a community approach and partnering with leading technology providers, we bring the best solutions to your mission. Our offerings include Wraith and Revenant, a cloud-agnostic, cross-cloud threat hunting and visibility Security as a Service platform.

## Digital Transformation:

NetCentrics is your trusted partner in digital transformation, offering expertise in implementing Zero Trust Architecture. We understand the resources, expertise, and investment needed for network and IT infrastructure modernization. Our team excels in automation, cloud migration, architecture development, and application management, providing successful outcomes for projects of any size. With a focus on operational excellence, we prioritize identity verification, access controls, and continuous monitoring to ensure the utmost security and resilience for your digital assets.

## Mission Support:

NetCentrics prioritizes your mission with expertise in program management, analysis, and training. We provide comprehensive services such as test support, tactics development, engineering, and software development. Our team anticipates your needs, offers best practices, and meets current demands, policies, and threats. We excel in effective program management, enhanced through analysis and tailored training programs. With expertise in test support, tactics development, and cutting-edge technology, we deliver success in engineering and software development.

NETCENTRICS

# Example Case Studies

## Cybersecurity Center - Department of Homeland Security (DHS)

Building a security operations center from the ground up for DHS and one of its primary subordinate organizations. Designed, developed, and deployed solutions addressing vulnerabilities and enhancing capabilities; built with future scaling in mind.

### Impact

Established a fully capable cybersecurity operations center via specialized expertise and custom solutions.

## JSP Platform Services

Past performance as the largest IT services contractor to the Pentagon. 24/7, 365 support with 40,000+ users. Supported NIPR/SIPR/JWICS - multi-domain - over 60,000 managed devices.

### Impact

Multi-tenant environment including Office of the Secretary of Defense (OSD), Chairman of the Joint Chief of Staff (CJCS), the Joint Staff, National Military Command Center (NMCC), Pentagon Force Protection Agency (PFPA), OSD Policy, OSD Comptroller

## Wraith

Providing a new cross-cloud, threat-hunting and detection cybersecurity tool for tomorrow's conflicts, built entirely in-house.

### Impact

Building a cybersecurity tool for the 21st century for warfighters, mission support operators and government agencies.
